DAY 3

MOUNT HUASHAN - HANCHENG

🍴 : Breakfast / Huashan dish / Hancheng Special

-Today, we will visit Mount Huashan, one of China's famous Five Great Mountains, known as the "most precipitous under heaven." It is a national AAAA-level tourist attraction. The western peak of Mount Huashan is majestic and known for its steepness and danger, with its steep slopes, cliffs, and perilous pathways ranking it first among the Five Great Mountains. Mount Huashan boasts a unique Feng Shui pattern among China's mountains and rivers and is known as the "Mountain of Wealth," a place where emperors of past dynasties worshipped mountain gods. Mount Huashan is also known as the "Bodhisattva Wonderland," a famous Taoist sanctuary and a dwelling place for immortals, making it a sought-after place for Taoist cultivation since ancient times. Almost every scenic spot on Mount Huashan carries a mythological story, creating a dreamlike world of mythology. Hancheng Ancient City is the best-preserved ancient city in Shaanxi and one of China's six major Ming and Qing dynasty ancient cities.

DAY 4

HANCHENG - HUKOU - YAN'AN

🍴 : Breakfast / Roasted Duck dish / Yan'an dish

-The Hukou Waterfall Scenic Area, dubbed the "Yellow River Wonder," features the only yellow waterfall on the Yellow River, ranking as China's second largest. This area encompasses the Hukou Waterfall and offers transportation within, showcasing the Yellow River Gorge, Loess Plateau, and ancient villages. It highlights the region's natural beauty and historical significance, designated as a national key scenic spot in 1988, named among China's "Top 40 Tourist Attractions" in 1991, and upgraded to a national geological park in 2016.

DAY 5

YAN'AN - JINGBIAN - YAN'AN

🍴 : Breakfast / Farmhouse-style dish / Sour Fish Soup dish

-The Wave Valley showcases a marvelous world sculpted by millions of years of wind, water, and time on sandstone. The complex layers of rock in the Wave Valley are formed by massive sand dunes deposited since the Jurassic period 150 million years ago. At that time, the landscape here resembled the Sahara Desert, with sand dunes continuously covered by layers of red sand soaked in groundwater. Over time, minerals in the water solidified the sand into sandstone, forming layered structures. The smooth, sculptural sandstone and the smooth patterns on the rocks create a dizzying three-dimensional effect.

DAY 6

🍴 : Breakfast / Countryside-style dish / Grilled Barbecue Buffet

-Yucha Canyon, in Ganquan County, Shaanxi Province, is renowned for its scenic spots including Huashugou, Huabaodou, Longbagong, Mudangou, and Yixiantian. Notably, Huashugou boasts picturesque scenery, formed millions of years ago by a seismic event that split the loess mountain, gradually shaping the canyon through centuries of rainwater erosion. This geological wonder is dubbed China's "Antelope Canyon," drawing photography enthusiasts to marvel at its intersecting lines, dynamic light, and captivating illusions crafted by nature's handiwork.

DAY 7
